25 Km	0H26		Continuer sur la Rue Caulaincourt [430m]

Please make sure you have the building entry code prior to arriving. You will need a code for the door at street level. After entering this first door, you'll need the name of the intercom button to press for getting buzzed through the second door.

Once through the second door, walk up the stairs to the first floor and it will be the door on your left. There is an elevator you can use for your luggage. Be sure someone goes in with the bags otherwise they may block the doors from opening and your luggage may get stuck!
